Intuitive App Interface

The 7xi's touch interface was thoughtfully designed for fitness. Its clean Home screen is the easiest way users can access content. From built-in social media apps to Virtual Active to on-demand TV and video, engaging content is just a touch away.

Hardware. Software. The Experience.

Matrix creates it all, so a user completing a Virtual Active™ workout feels incline changes as the terrain changes and hears ambient noises, and they can post their workout data to social profiles with a single touch for a truly integrated experience.

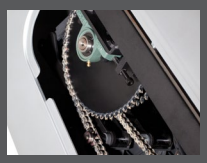
Control Zone

For added peace of mind, our Control Zone features a sensor that stops the step rotation when triggered by an object or person.



Removable Access Panel

All Matrix ClimbMill™ models feature an access panel that can be quickly removed using a common coin for easy serviceability. An integrated service light provides visibility of internal components.

Ergo Form™ Grips

Our Ergo Form™ grips with integrated pause/stop and resistance controls to enhance comfort and make it easier to make workout changes on the fly.

"Made for iPod®" means that an electronic accessory has been designed to connect specifically to iPod® and has been certified by the developer to meet Apple performance standards.
Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.
